

Year 4 Sign Offs

Track your mandatory procedures and block requirements. Works offline, no account needed, and takes about a minute to set up.

hylcke.github.io/year4-sign-offs/

1 Install it

iPhone

Use Safari, not Chrome or the camera preview.

1. Point the **Camera** at the QR code and tap the link, or type the address into **Safari**.
2. Tap the **three dots (⋮)** at the bottom right. On older iPhones, skip to the next step.
3. Tap **Share** (the square with an arrow).
4. Scroll down and tap **Add to Home Screen**. If you cannot see it, tap **View More** first.
5. Keep **Open as Web App** switched on and tap **Add**.
6. Close Safari and open **Sign Offs** from your home screen.

Android

Use Chrome.

1. Scan the QR code with the **Camera**, or type the address into **Chrome**.
2. Tap the **three dots** at the top right.
3. Tap **Add to home screen** or **Install app**.
4. Tap **Install**.
5. Open **Sign Offs** from your home screen or app list.

Computer

Chrome or Edge on Windows or Mac.

1. Open the address in **Chrome** or **Edge**.
2. **Chrome**: three dots, then **Cast, save and share**, then **Install page as app**.
3. **Edge**: three dots, then **Apps**, then **Install this site as an app**.
4. Click **Install**. It opens in its own window and gets an icon in your Start menu or Dock.

Install before you start ticking. On an iPhone, the home screen app keeps its own data, separate from Safari. Anything ticked in a Safari tab will not appear in the app.

2 Choose your section

The first time you open the app, pick your section from the Year 4 timetable. Each option shows which block you started with and which you are on now, so you can check.

Picked the wrong one? Tap **More**, then **Change section**. Your ticks stay put; only the dates move.

3 Sign things off

- **Tap an empty box** to sign it off with today's date.
- Wrong date? Tap **Change date** in the bar at the bottom, or tap the filled box any time.
- Tapped by mistake? Tap **Undo**.
- **Next** shows what to chase and what is left in your current block.

4 Back up to OneDrive

Your ticks are saved **only on the device you tick them on**. Nobody else can see them, but they are lost if you change or reset that device without a backup. Back up every week or two; the app reminds you on the Next tab.

iPhone

Once: install the OneDrive app and sign in with your university account.

1. In Sign Offs, tap **More**, then **Back up**.
2. Tap **Save to Files**.
3. Choose **OneDrive**, make a folder called **Year 4 Sign Offs**, and tap **Save**.

Android

Once: install the OneDrive app and sign in with your university account.

1. Tap **More**, then **Back up**.
2. Choose **OneDrive** in the share menu.
3. Pick your **Year 4 Sign Offs** folder and upload.

Computer

Once: sign in to OneDrive on the computer so it has a OneDrive folder.

1. Click **More**, then **Back up**.
2. Save the file in **OneDrive**, in your **Year 4 Sign Offs** folder.
3. Allow it to edit the file if asked. From then on it saves to that file **automatically** every time you tick something.

5 Restore or move to another device

New phone, or ticks gone?

1. Install the app and choose your section.
2. Tap **More**, then **Restore**.
3. Open **OneDrive** (on iPhone tap **Browse** first), go to **Year 4 Sign Offs** and pick the newest backup.
4. Tap **Replace data**.

Using a phone and a computer?

They do not sync with each other. Tick on one device, your main one. To see the same ticks on the other, back up on the main device and restore on the other. Restoring replaces what is on that device, so do not tick on both.

This is a student-made study aid, not an official University or NHS tool. Always log sign offs on SPARK and the ePortfolio.

Never write patient identifiable information in notes. Paper booklet: hylcke.github.io/year4-sign-offs/print/pocket-booklet-a5.pdf
